## PROFILE

Motivated and enthusiastic first-year B.Sc. student in Electrical and Electronic Engineering at the University of Dhaka, with a strong interest in electronics, programming, and real-world innovation. Currently serving as a Programme Coordinator at the IEEE Student Chapter, University of Dhaka (Membership ID: 101468887), actively contributing to student-led events and initiatives. Passionate about teamwork, continuous learning, and applying engineering knowledge to impactful projects.

## WORK EXPERIENCE

### 1. Communication and Leadership

2030 - PRESENT

As a Programme Coordinator at the IEEE Student Chapter, University of Dhaka, I have developed strong communication and leadership skills by organizing events, coordinating with team members, and engaging with a broader student community. These experiences have enhanced my ability to manage responsibilities, lead initiatives, and work effectively within a team.

### 2. Technical Documentation and Content Creation

2025 - 2029

- I have experience in writing essays, speeches, and academic content with clarity and structure. I also enjoy creating visually engaging PowerPoint presentations and documentation, which supports both academic and extracurricular work. These abilities help me communicate technical ideas in a clear and professional manner..

### 3. Design and Digital Creativity

2024 - 2025

- With a passion for creative work, I have developed skills in photo and short video editing. I often apply these in academic settings and student-led campaigns, combining visual storytelling with a strong sense of design. I aim to integrate creativity into technical presentations and projects wherever possible.
